## Mission

Our mission is to reduce the number of people in Brunei Darussalam with cancer or late presentation of cancer especially those with high risk through early detection and screening program in our dedicated centre.

## About Us

We offer consultative and cancer screening clinic, focusing on health education and cancer risks assessment for those well individuals with high risk and/or with family history of cancer.

The multidisciplinary team of Early Detection & Cancer Prevention include our dedicated doctors and consultant, nurses, health caregivers, hospital aide, administrative clerk and receptionist.

We also established a close partnership with our local Clinical Consultants and Specialists in providing high quality and timely screening and diagnostic investigations and referral pathway.

## Our Location

Our clinic is located at Level 2, PJSC building, opposite TBCC Out-Patient Department.

## Currently our unit facilitates your entry to the National Cancer Screening Program mainly for:

1. Breast Cancer
2. Cervical Cancer
3. Colorectal Cancer

## Our screening target will be:

Healthy individuals of the target age groups who are interested to be screened for early detection of cancer.

## We also provide consultative clinics for:

- Cancer risks assessment and education.
- Individuals with specific symptoms of breast lumps, nipple discharge, post menopausal bleeding, abnormal vaginal discharge, abnormal bowel habit and rectal bleeding.
- Healthy individuals with strong family history of cancer.

- Advice on preventive measures:
  - Hepatitis B vaccination
  - HPV vaccination
- Teaching Breast Self Examination.
- Clinical Breast Examination.
- Health education through talks given by our doctors, nurses and allied health staff from EDCPS and The Brunei Cancer Centre (TBCC) including invited speakers.
- Dedicated resources for online research related to cancer is also provided in the Learning Centre in EDCPS.
